Nissan Z Defy Ordinary

It holds you like never before

A great dance partner knows how to hold you perfectly. Tight enough for control, but with room to move, too. The Nissan Z does even more than that — it holds your imagination. Advanced technology serves up everything you need to know, combined with iconic design that never forgets what a true sports car must be.

Nissan GT-R®-inspired steering wheel

4-way power-adjust driver seat with manual lifter, thigh & lumbar support

Leather-accented[^] seat trim with suede door trim finisher

Driver's seat cutouts for more precise steering and shifting

Padded knee bolsters

* Up to 10 year warranty when servicing at authorised Nissan dealers. Full terms at [Nissan.com.au/warranty](https://www.nissan.com.au/warranty).

298 kW, twin-turbo V6 engine

At the heart of the Nissan Z is this 3L V6 twin-turbocharged 24-valve engine. An aluminum-alloy block and heads keep things light, while a water-cooled intercooler helps reduce the temperature of incoming air. Tech brings impressive power of 298 kW and 475 Nm over a broad torque band between 1,600-5,600 rpm.

6-speed manual and 9-speed automatic transmissions

An upgraded 6-speed manual transmission with SynchroRev Match® means pure driving thrills. An available 9-speed automatic with shift-by-wire controls brings cutting-edge technology and response. The hardest part? Choosing only one.

Shift by Wire Automatic Transmission

A chassis built to respond

The new Nissan Z is designed to handle your favourite roads with new monotube shock absorbers and suspension tuning for enhanced response. Strong and lightweight aluminum and carbon-fiber composite components, plus massive 19" forged alloy wheels by RAYS® with new performance tyres will give a G-induced smile in every turn.

Overseas pre-production model shown. Australian specifications and features may differ.

Launch control and mechanical limited-slip differential

A first for the Nissan Z – the launch control available in both manual and automatic transmission, helps reduce wheel spin and hop, by holding the engine at a pre-set rpm and modulating power as you pull away, to give you the fastest, most consistent acceleration every time. Combined with the Nissan Z's mechanical limited-slip differential, it lets you enjoy every last rpm that the powerhouse serves up.
